

# SOUL OF NOLA

The Soul of NOLA embodies the true essence of New Orleans. This particular group is made up of (5) really passionate and talented gospel singers from the New Orleans region, straight out of the local churches.

Each singer grew up in the local churches and started singing before they knew anything about the mechanics of their talent. It was just what happens in the corner churches, in New Orleans.

For the past (3) years the group has traveled extensively with Joyful and the Spirit of New Orleans to destinations all over Europe. This group of (5), collectively, has more than (200) combined years of gospel music experience. This experience is circumvented only by their love and passion for gospel music itself.

If you're looking for a "shouting good time" with gospel music, then this is the artist for you. The group lends itself to traditional, old fashioned, gospel harmonies. Each member in this band has spent countless hours on the road during the last decade spreading the love of Christ. Today they carry on the tradition.
